Wiese Europe folding stairs are constructed from our proven industrial design. They ensure you a safe and easy access to the top of trucks and train tankers.

**Features**
- 3, 4, 5 and 6 steps available, customized upon request
- Perforated anti-slip steps, 800mm wide
- The first movable step has a pivoting part, preventing accidental jamming of the feet
- Larger end step with rubber contact bar to prevent static discharge and damage to insulated trucks
- Balanced construction through a spring cylinder
- Hot dip galvanizing according to the latest ISO 1461 standard
- Automatic vertical locking by means of a foot pedal
- Smooth hand-, knee- and foot rail
- Spacers between knee-, and handrail to prevent jamming of fingers when closing the folding stairs
- Frame with enclosed ball bearing, wear and maintenance free plastic bedding of all movable parts
- According EN1090-2
- Chain locking device in order to lock the folding stairs in any desired position

**Options**
- Limit switch to detect resting position in normal or Ex-proof design
- Pneumatic or hydraulic operation
- Movable trolley to operate over the complete width of the platform
- Self-closing door at the entry of the folding stairs
- Plastic glass fiber reinforced steps for highly corrosive and very aggressive environments
- Can be painted in any RAL color available
- Safety cage from standard design: 1,4 x 1,4m, 1,4 x 2,0m, 1,4 x 2,8m
- Custom safety cage design
